**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of Group II, claims 28-47, in the reply filed on 10/08/2008 is acknowledged.

This application is further restricted because it contains the following patentably distinct species of the claimed invention:

Embodiment 1 represented by Figs. 1A-1D and 2;

Embodiment 2 represented by Figs. 3A-3 D;

Embodiment 3 represented by Fig. 4;

Embodiment 4 represented by Figs. 5A-5C;

Embodiment 5 represented by Fig. 6A;

Embodiment 6 represented by Fig. 6B;

Embodiment 7 represented by Figs. 7A-7C;

Embodiment 8 represented by Figs. 8A-8C;

Embodiment 9 represented by Fig. 9;

Embodiment 10 represented by Figs. 10A-10B;

Embodiment 11 represented by Fig. 11B;

Embodiment 12 represented by Fig. 11C;

Embodiment 13 represented by Figs. 12A-12B; and

Embodiment 14 represented by Figs. 13A-13C.

The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
